

EARLY INTERVENTION COURSE (SCH 267)

Device Management

FOR 5TH-6TH GRADE

COURSE DESCRIPTION

The *Device Management* early intervention course is created to help students learn to use technology intentionally so it supports the life they WANT rather than quietly taking control of their time, attention, and choices. This course focuses on habits, choices, boundaries, and self-control. It teaches students practical strategies for managing when, where, why, and how they use technology.

LEARNING OBJECTIVES & SKILL DEVELOPMENT

- Recognizing device habits and triggers
- Notifications and interruptions
- Awareness and repetition
- Building a healthy digital life
- Managing social media and gaming
- Using school devices appropriately

RECOMMENDED USES

- **Self-Directed**—Student does most of the course work independently with a coach or mentor.
- **Group**—To be completed at school in a group format with a facilitator.
- **Hybrid**—A combination of self directed learning and group instruction.
- **Live Instruction**—Facilitator led digital curriculum, suitable for both in class or virtual.
